ABOUT ME

As reflected in my studies, I have a wide variety of interests, ranging from music and theater to biology and technology. This hybrid mindset draws me to both the artistic and technical sides of digital media. I am passionate about 3D in all its forms because of the total freedom it offers to create absolutely anything, and I am equally fascinated by the technical backbone that makes it all possible. I am eager to expand my skills in both art and tech, bridging the gap between them, to keep learning and building immersive and meaningful experiences.

EXPERIENCE

CEU San Pablo University - UPIA (Unidad de Producción e Innovación Audiovisual)

3D Generalist & Game Developer **Sep 2023 - Jun 2025**

- Engineered & Co-Designed a 2D educational game in Unity (C#) from scratch, applying OOP design patterns to build clean, modular code and reduce technical debt.
- Developed VR simulations in Unreal Engine, programming 3D interactions and mechanics.
- Managed the 3D asset pipeline (modeling/texturing) to ensure optimized integration into the engine.

Collaboration with songwriter Alec Grace

Creation of animated music video & song visuals **Jun 2025 - Present**

- Directed and executed an full animated music video and single cover, focusing on visual storytelling.
- Managed the end-to-end 3D pipeline: from layout and modeling to camera & character animation and editing.

LEEM - UPM Rocketry Team - Marketing Department

3D Visuals & Motion Graphics Artist **Oct 2024 - Jun 2025**

- Directed & produced a team presentation video for EuRoC european rocketry competition.
- Produced a short 3D rocket reveal video from concept to final render, managing the full 3D workflow.
- Created dynamic 2D motion graphics and additional video content for social media branding.

BQ Education | IGNITE | Rockbotic

3D Modelling, Videogame & VR Instructor **Jun 2025 - Present**

- Taught after-school and summer classes on game programming, VR, 3D design, and creative robotics.

EDUCATION

Bachelors in Digital Art + 3D Engineering
CEU San Pablo University | **Sep 2022 - Present**

Professional Musical Studies (piano)
Conservatorio Amaniel | **Sep 2011 - Jun 2022**

PROFESSIONAL SKILLS

3D Modeling & Animation: Autodesk Maya - 3ds Max • Blender • Zbrush || **Game Engines:** Unreal Engine · Unity || **Programming & Scripting**: C++ • C# • HLSL/GLSL • Python • Tkinter/PyQt • Github, Unreal Blueprints || **Rendering & Shading:** Arnold, Cycles, Substance Painter & Designer || **Post-production & Design**: Adobe Animate - Premiere Pro - After Effects

Soft Skills: Creative problem solving · High attention to detail · Teamwork · Fast learner

Languages: Spanish (native) · English (C1) · Italian (A2) · German (A1)
