LUCIA BERMEJO

3D Artist | Technical Artist | Game Programmer

+34 652 20 16 12 • lucia.bgm0@gmail.com • Linkedin • Madrid, ES

ABOUT ME

As reflected in my studies, I have a wide variety of interests, ranging from music and theater to biology and technology. This is seen directly in my hybrid profile, as I am drawn to both the artistic and the technical sides of digital media. I am passionate about 3D in all its forms because it offers total freedom to create new ways of experiencing stories and emotions. Whether it is through storytelling-driven video games, adult animation, or immersive exhibitions, my goal is to keep exploring every possibility I discover and learn everything I can from them.

EXPERIENCE

UPIA - CEU San Pablo University

Development of 3D & VR Games and Experiences **Sep 2023 - Jun 2025**

- Engineered & Co-Designed a 2D educational game in Unity (C#) from scratch, applying OOP design patterns to build clean, modular code and reduce technical debt.
- Programmed logic for VR simulations in Unreal Engine, focusing on continuous bug-fixing & code refactoring.
- Managed the 3D asset pipeline (modeling/texturing) to ensure optimized integration into the engine.

Collaboration with songwriter Alec Grace

Creation of animated music video & song visuals **Jun 2025 - Present**

- Directed and executed a full 3D animated music video, focusing on visual storytelling, framing, and composition.
- Translated narrative concepts into final shots by deciding camera placement, focal lengths, and asset distribution.
- Managed the end-to-end 3D pipeline, from optimizing rendering times to finalizing post-production and video editing.

LEEM - UPM Rocketry Team - Marketing Department

Video Director, 3D Visuals & Motion Graphics Artist **Oct 2024 - Jun 2025**

- Directed & produced a team presentation video for EuRoC european rocketry competition.
- Produced a 3D rocket reveal video from concept to final render, managing the full 3D workflow.
- Created dynamic 2D motion graphics and additional video content for social media branding.

BQ Education | IGNITE | Rockbotic

3D Modelling, Videogame & VR Instructor **Jun 2025 - Present**

- Taught after-school and summer classes on game programming, VR, 3D design, and creative robotics.

EDUCATION

Bachelors in Digital Art + 3D Engineering
CEU San Pablo University | **Sep 2022 - Present**

Professional Musical Studies (piano)
Conservatorio Amaniel | **Sep 2011 - Jun 2022**

PROFESSIONAL SKILLS

3D & Animation: Autodesk Maya - 3ds Max • Blender • Zbrush || **Game Engines:** Unreal Engine · Unity || **Programming & Scripting**: C++ • C# • HLSL/GLSL • Python • Tkinter/PyQt • Github, Unreal Blueprints || **Rendering & Shading:** Arnold, Cycles, Substance Painter & Designer || **Post-production & Design**: Adobe Animate - Premiere Pro - After Effects

Soft Skills: Analytical problem solving · High attention to detail · Collaborative · Adaptability · Fast Learner

Languages: Spanish (native) · English (C1) · Italian (A2) · German (A1)
